

### **Z3 roadster Door Pocket Cupholder Part Number – ZCup**

These instructions have been prepared by Roadster Solutions, LLC, specifically for the Door Pocket Cupholder. No methods other than those specified in these instructions are to be used to install the Door Pocket Cupholder. Carefully read all instructions before proceeding with this installation.

#### **INSTALLING THE DOOR POCKET CUPHOLDER.**

Match shape with the picture below to identify top and bottom of cupholder. Insert into side pocket applying slight pressure until lower ridge of side panel overlaps rear cut out of cupholder. See arrow above.

Cupholder works best with can and bottles. Be careful when closing doors with open containers in cupholders the sudden stop when the door latches could cause spillage.

Door panel holders can be used for many storage purposes in addition to holding beverage containers.

**>>WARNING<<** Never drink while driving.
